

My family (including 3 grandchildren ages 2 through 8) and I and many members of our church and community groups have been listening to K-LOVE for the past three years. This is one of the few wholesome radio stations in our area that you don't have to worry about children listening to. This is a Christian station that supports moral values and has a positive impact on any and all listeners. When young children, teens and young adults, in addition to older adults request K-LOVE on the radio, it really is a station the community should not have to do without. This radio station serves our community and many others across America by broadcasting only clean, wholesome songs and messages and advice. Please DO NOT allow the LPFM stations to obliterate the good work of K-LOVE and stations like it.
